Consumer Price Index	20
Rainfall (agricultural areas)	21
List of Publications	22

EXPLANATORY NOTES

Most of the tables in this publication have been prepared entirely on a monthly basis, to provide easy comparison of data. With a few exceptions, annual and quarterly figures are expressed as Monthly Averages, and these can be converted to actual totals by multiplying by 12 and 3 respectively.

For example (from page 3 opposite):

Marriages in year 1959 -		
Monthly average		551
Therefore Annual total = 12 X 551 =		6,612
(Actual figure is 6,614)		
Births in March quarter 1960 -		
Monthly average		1,742
Therefore quarterly total = 3 X 1,742 =		5,226
(Actual figure is 5,225)		

The statistics as published can be adapted to give information in a number of different forms. For instance -

- (1) Details can be obtained for calendar or financial years as required, by addition of figures for the four relevant quarters.
- (2) Progress total for the year to date can be obtained by adding totals of quarters and months.

e.g. If May figures are the latest published, total for the 5 months to May = 3 X monthly average of March quarter + April and May.

This procedure can be used to calculate corresponding figures for the same period of the previous two years, or similar information on a financial year basis.

Details of production on pages 8 - 11 are for selected items only. Particulars for several commodities of considerable importance in this State have been withheld because publication would reveal confidential information.

ABBREVIATIONS USED

Throughout this bulletin the following symbols have been used -

n.a.	Not collected, not available for publication, or not applicable
..	Nil (or less than 0.5)
p	Preliminary figures
r	Revised since previous issue
—	Break in continuity of series (where drawn across a column between two consecutive figures)

A blank space in a column of figures means the figure concerned is not yet available.

When the symbols "p" and "r" are placed in the column headed "Period" (as for example on page 13), they refer to all figures on that particular line.

DEMOGRAPHY

Period	Births (a)	Marriages (a)	Deaths (a)		Net Migration (Overseas and Inter- state)(c)	Population (d)

Nov.		n.a.	468	38	679			

(a) Registrations recorded during the period.

(b) Under 1 year of age.

(c) Excess of arrivals over departures. Interstate migration relates to recorded movements by rail, sea and air, and certain special movements by road.

(d) As at the end of each period.

(e) Changed registration procedure from January, 1960 has resulted in fluctuations in subsequent periods.

NOTE: Population increases of the State can be calculated from the above figures as the sum of Natural Increase (Births minus Deaths) plus Net Migration.

For meaning of symbols p, n.a., see page 2.

1960	284,176	199,685		67,393	250,695	107,664	140,895(e)

(a) Includes other types of vehicles, e.g. Buses, Motor Cycles.

(b) Average from May, 1959, only.

(c) Figures supplied by Registrar of Motor Vehicles.

(d) Total existing licences and phones includes Northern Territory (as at 30th June, 1960, Radio licences 3,356, Phones 3,791).

(e) From July, 1960, figures are for numbers of services, compared with numbers of instruments shown previously.

For meaning of symbol .., ———, see page 2.

RETAIL SALES

The figures below relate to retail sales of goods (as distinct from services, repairs etc.) from fixed premises at which goods are normally sold by retail to the general public. Goods sold from hotels, garages and service stations are included but those from establishments such as clubs and guesthouses are excluded. Figures for the year 1956/57 are derived from a Census but other figures are estimates based on sample surveys.

(a) Excludes conveyances of shares, devises by will, etc.

(b) Average of balances at close of business on Wednesdays during the period. Banks were exempted from submitting returns for the 4th Wednesday in December of each year.

(c) Average of debits during weeks ending on Wednesdays in the period. Includes Rural Credits Department of the Reserve Bank and the Commonwealth Development Bank.

CONSUMER PRICE INDEX

For current statistical purposes, the Consumer Price Index replaces both the "C" Series and the Interim Retail Price Indexes. This title is adopted in conformity with world trends in naming indexes of retail prices (including prices of services, accommodation etc.) paid by consumers, and wherein these prices are weighted according to patterns of consumption. "Retail" or "consumer" price indexes measure the degree of change in "price" only. They may indicate the proportionate change in the cost of a defined standard of living, but they do not measure the cost of living itself nor the money cost of changes in the standard of living.

The list of items used in compiling this index has been expanded to include home ownership, weekly payments for houses let by State Housing Authorities, major household appliances (such as refrigerators, washing machines and television sets), private motoring, beer and other additional items.
